Just wanted to point out something that Gary Gensler said in his interview today with the Washington Post. I don't know how to add a link because I've never posted before but I'm sure most of you have seen it already anyway.

The most important thing that Gary said in the interview is that much of the information is already out there and CRUCIALLY HE NOTED the Washington Post has already written about the events. The interviewer smiled a knowing smirk and bowed his head when GG highlighted the papers journalistic efforts. What did the WaPo have to say about the squeeze? That short sellers are the good guys.

From this alone I think we can infer that Gensler's investigation will fit the WaPo's existing narrative. In other words we can expect it to be a useless fud effort. Fuck you Gary.
