'Sup bitches, I'm here to tell you something you already know, banks are c**ts.

Now for the part you don't. Believe it or not, this time is gonna be very very different. Really different. And if you've been paying attention you probably already know most of what I'm sayin.

NOW. When GME becomes a phone number and you decide you wanna take maybe one or two hot baby potatoes out and treat yourself to a date night with a side of Lamborghini just remember that as of right now the safest place for your big buckeroos is actually probably right there with daddy Cohen.

In Australia, since 2018 our banks have (Very f**kin quietly) been given bail-IN orders. What that means is if you're an Aussie ape and you get the sweet idea to withdraw your winnings then anything over \$250k gets wiped. zip. straight back to the banks you got it from.

There's talk about Europe moving to the digital currency without warning, meaning the fiat will be erased, and your winnings? gone.

And god bless America I got no clue what those beese-churgers have planned. But it wont be nice. It's kind of a global thing anyway and all the governments are in on it, they talk about it all in Davos and shit. No biggy.

So where do you move your fat wads? well you cant withdraw them cash, literally banks just won't let you. Best bets are to move it to digi and/or buy bits of precious metals to convert later.

OTHERWISE

Daddy Cohen has a wallet happening, and if he's a smrt cookie, which he might be, idk. He'll give us an out to move everything into a new blockchain.

Basically don't start freaking out and rush and start ripping your money out to start throwing it at lambos because honestly if you're stupid enough to store your money in the banks, AFTER EVERYTHING WEVE BEEN THROUGH

THEN YOU DESERVE TO HAVE IT ALL TAKEN BACK WHICH IT WILL.

Stay zen you beautiful c**ts, just cause you can see the prize doesn't mean its time to jump. we might have to wait just a little longer.

On the plus side its more big circular puddles that you can swim in, I'm leaving my shit to infinity, don't be dumb homies. This depression is gonna be like nothin you've ever seen before, don't be rash, governments and banks don't give a damn about you - but your apes do. We got you man. We got you.

Love you shitheads.
