I feel so stupid.

I only have 3 GME shares that we purchased through Charles Schwab. Is it too late to DRS at this point?

Why are people keeping some stocks with their Original brokers and some with ComputerShare?

I really don't know if I should be moving over to ComputerShare or staying with Charles Schwab..

I know nothing about stocks. My partner bought 3 shares but they don't read much of the subreddits and now I'm kinda freaking out because I don't want us to miss the boat.

Help a simple ape pls.
