It's 12:40 am pacific... later today Ryan Cohen is quite literally going to have to tell everyone what he's doing with all this token money.. he's completely cashed out of immutable x and hasn't said a word about loop but it's all in the 8k or 10k or f13.. I forgot but I did read loop is a huge part in this. I mean he can't just play around with that much more money they got from crypto without telling us.. as an investor I would like to know what that's all about.. and I'm pretty sure a public company has to tell us.. now I'm not saying it will necessarily cause THE mother of all ss but!!! It will def shoot those cryptos into orbit!
