**PLEASE READ: I am certain of the FUD campaign of the moment. And it's clever. All the posts about the Compoochair \$3,500 max limit; the guy who wrote an angry email to them making demands, it's ALL about getting people to pull shares from computershare and bring them back...**

**Speculation / Opinion**

to brokerage accounts for lending, shorting ,  
general fookery. And it's also to get people to  
stop DRSing now, and to scare them from  
DRSing the splivvy shares. I'm certain. The  
entire premise of being mad about it is  
ridiculous. Even at the reduced limit, it's still  
way higher than most brokers limits. They must  
really be on the ropes, time to deliver the  
knockout blow with more Buy/HODL/DRS/Shop.  
Apologies in advance but I plan on reposting  
this in couple other places. It's a clever , but will  
not work. Apes are too dumb. Now LFG!! 🚀🚀
