I still have two shares of GME in my schwab account. It's a holdover, thinking I'd have most in CS, but still have a some ready to sell right away. I've just never got around to transferring them (I've bought all my DRS shares straight through CS).

So what happens if I start the transfer process and the moon happens? Do I get hosed if those shares are in transit? I'm completely clueless about the transfer process since I haven't done it.

Or what risk do I run if my two shares in schwab are fake and they won't honor them? Is it just the 500k insurance payout is the max I could fight for?

Thanks apes!
