Day 19, Guide 19: Comdirect

<https://www.drsgme.org/drs/direct-register-shares-from-comdirect>

Comdirect is a German broker that cannot DRS transfer. So you would need to transfer to a broker that can (Comdirect charges a €25 fee to transfer to another broker). German brokers such as Baader Bank and Lynx can DRS transfer for a \$5 fee. Or DKB can DRS transfer for free, but requires an existing Computershare account.

Another option is an international broker such as Revolut or IBKR. Revolut is free to DRS transfer, and IBKR charge a small fee of \$5. Both have been reliable at DRS transferring.

If you have bought GS2C shares through Comdirect, you must convert them to GME before they can be DRS transferred. IBKR has also halted transfers in of GS2C to their platform, so you must convert to GME before transferring to them if you take the IBKR route. Most German brokers offer this conversion for a fee.

Guides for all of these brokers are available on the site.
