I only bought x shares bc I haven't had the spare money to get invested deeper but I've got them across Fidelity and Webull.

None are DRS.

Is the DRS thing only for people who want to be involved with the infinity loop investment? I've been watching the market for a few months and really want to be a part of MOASS when it happens but just wonder if I'm in the right position to reap the rewards.

Oh and like, the NFT Marketplace being built. I'm confused about if I need to be invested in anything else to maybe reap some gains from that?

GME Apes, pass a fellow ape with x amount of shares some wisdom and guidance. ■
