I think all or most have seen that Ally's clearing house, Apex, will now be pulling DRS'd IRA shares from Computershare making them no longer DRS'd. This seems like incredibly inconvenient timing for GME holders.

1) the DRS count for Q4 Ends Jan 31

2) Tomorrow, Jan 21 a bunch of options expire, so UN direct registering a lot of shares, to my understanding, would provide a lot of GME liquidity to the market as well.
