<p>Number 7 is straight, but in image 3 and 4 it is curved</p> <p>Thin line on the dollar but thick on others</p>	<p>The purple box is a different shade to the others</p> <p>Straight bar on the 7</p> <p>Total is not in bold in the middle section</p> <p>Upper bar of the 1 is straight, curved on other images</p>	<p>Curved 7, not straight 7</p> <p>Value is in bold</p> <p>Curved 1 not straight 1</p>	<p>Another curved 7</p> <p>Comma distance between 9 and 8 is less than the 1 and 1 in image number 3.</p> <p>Total is in bold, not in bold on #1 and #2</p> <p>Another curved 1</p>

The GME on all 4 posts is the same, which makes me query why font changes on numbers apply but not on the words.
