Whats everyones expectation this week for gme? As I understand opex from june got kicked to this week? Why can't they just do it again?

So opex expire friday, a lot of ftds need to delievery. T+2. So maybe dip monday then tuesday/wed some upwards movement.

Then all with this split dividend on top of it, maybe we could see some fireworks?

I have been here since january 2021, so I know we usually got slammed down and nothing happend, or at least expect nothing hope for everything I guess.

Whats everyone else thoughts about these coming weeks? Buckle up
