As title says, I am trying to transfer the rest of my IBKR GME position to my existing account on our beloved ComputerShare and that's when I saw:

"Enter Broker Information. Account Number at Transfer Agent. New Account to be Created Upon Processing"

And

"The re-registration of position to an existing account is not supported. Upon the completion of the request, the transfer agent will create a new account. Please contact the transfer agent to merge position between an existing account and the new account that is created if you wish to do so."

What should I do in this case??
