Good morning guys and gals,

First I am gonna ask a huge favor of those following this DD Trail, if you haven't yet upvoted the post on SuperS please do so we can help it get some traction there aswell! You can find it here:

[https://www.reddit.com/r/Superstonk/comments/snjpg1/confirmation_on_recent_spac_dd/?utm_source=share&utm_medium=web2x&context=3](https://www.reddit.com/r/Superstonk/comments/snjpg1/confirmation_on_recent_spac_dd/?utm_source=share&utm_medium=web2x&context=3)

From there you can back track to the rest of the posts and I am gonna try to keep them linked 1:1 now for clarity sake!

Now if this doesn't count as DD feel free to change the flair but I think the timing on this iscurious

HAHAHA

I genuinely really tried for you guys this morning! But....

HAHAHAHA

ARE YOU SERIOUS!?!? I haven't seen this before! Clearly its a fluke, lets just go look at something else.

I Really was itching to help explain to a question I saw earlier about how Susq and the 13(d or g) relates to the SPACs. And I see the connection in my head, just need to find the way to prove it. So figured Id work on that.... Where was my last leads in terms of them.

From Part 2 of the DD:

[Susquehanna = ETRF = also a market maker!?](<https://preview.redd.it/8yi8usl7emg81.png?width=662&format=png&auto=webp&s=bb0a9bc9373b911e43a87a77695cb22860df95e0>)

As I start going down this trail I hit!

HAHAHAHA

It's cool, I'll see how to deal with this today! But in the mean time I'll share the little bit I did find!

First: A Comic that reminds me of our dear GME
