Hi all,

Over the weekend, my sister was outlining the august volatility incidents on meme stocks to my fam, and she described it as an insider playing his support base for a pump and dump, resulting in his now being under investigation by the SEC.

(She was sharing Cliffs notes from the MSM, I know.)

I redirected the conversation that a multibillionaire like Cohen has no reason to engage in a p&d;, given that the risk-to-reward is nonsensical, considering he'd only be gaining a few million bucks against destroying goodwill with 500K or more investors in a company worth far more.

That ended the convo; however, I am sure this is not the last one of these to come.

That being said , is there a pinned post of ongoing, outlined, specific events that exhibit Ryan Cohen's character and aims? In the future, I'd like to be able to share a litany of evidence, based on specific events rather than conjecture.
