So RC just tweeted again. This time an 8 second video of him on the CATwalk with a body that is looking mighty fine. The tweet had a timestamp of 3:01 Pacific time.

Another ■ has done some digging already into what 301 may mean. Hat tip u/MunnaBigDicc...but I think there is more that RC is trying to tell us. I have been trying to tell people this for a while and I think many are finally starting to realize what I have been saying may actually have some merit...that GME is a play by the white hats to expose the swamp on Wall St and in the Central Banking cartel and eventually drain it/them of their money and power.

So I did some quick searching of correlating drops from our favorite insider. I also searched the news... and what I found was interesting.

So I made this graphic to show the connections:

The Bezinga article in the upper right hand corner didn't show a date...it only said 9 hrs ago...so I pulled down my time/date bar at the top to show the article was indeed from today.

As you can see, an interesting topic (Wall St crime) was mentioned...with a connection to the Rothschilds.

Same with the other Bezinga article...but this one was about a new Rothschild backed crypto.

What have us apes been talking about lately? Crypto dividends and how GME is working its way all the way up to the Rothschild backed Central Banks!

This is where I do the hand off to wrinkly brained apes to dig and try and find out what else RC and the white hats are trying to tell us. Hive mind FTW.

I'm not sure I know what they are trying to say at this point but I do know one thing, the corrupt Rothschilds are in deep you know what and are probably looking for a way out of this mess.

They can fly all they want and attempt to escape, but our rocket is going to win the race.

Let's go!

Edit 2: here we go with the Rothschild connection...
