Hey apes,

im starting to write my bachelor thesis in february about market manipulation on the gamestop stock. I don't need full proof just evidence and i need to argue resonably about it basically. I did already make a list of possible topics to write about:

- * Naked shorting
- * FTD
- * Married out of the money puts
- * T21/T35 Cycle
- * Options in general (Strike price 0,05 etc)
- * Cellar boxing
- * Same stock movement as other stocks
- * Broker do not have the shares but IOU
- * Retail Order Flow through Citadel
- * Media Coverage
- * Glitches
- * Negative Beta
- * ETF shorting
- * January Halt

Do you have something to add for my list? The last two months i did not really browse Superstonk so i might not be up to date.

Kisses and thank you :)
