Hey apes,

Long time lurker, been Diamond Hands on gme since January 2022. I've been starting an NFT project that is centered around bringing market manipulation and corruption to light and helping people fight against it.

I wanted the cardano and nft community to understand how manipulation is hurting all stocks, cryptos and nfts. Id like to show DD from different subreddits including superstonk and gme. Would it be okay with the subreddit if i used some of the DD on here?

I'd only use the links to the subreddit DD inorder to give credit to the author and it'll bring more traction to the cause.

The project is called Chymp Corruption Fighterz. We only have a twitter as of now, still new.
