GME apes I feel it's time to take to the streets. We've tried everything else. From sending emails to posting videos. Nothing has changed. In fact the SEC has strengthen the Hedge Fucks ability to screw us. They SEC has mocked us with videos. Blamed us for the way the market is. I feel talk time is over. I don't know how peaceful protests start or marches but we need to organize one. They need to hear us loud and clear. Apes aren't leaving. Retail is here to stay. We've had enough of the corruption. We play by the rules. They change the rules any time they want. To thier advantage. Enough talk I feel it's time we show them our power in numbers. Let's spread the word and get this thing moving. If we don't they'll keep the corruption going. We started this movement a year ago together. Let's finish it together. Help spread the word. I'm ready. Are you? What do you think? Is it time Apes?
