This post might get some downvotes but I just wanted to speak on something out of pure speculation. Not sure if anyone has made a post about it yet but it seems to be very coincidental that both "The Stock that shall not be named" & GME's utilization has both hit 100% at the same time. Even more coincidental that today Gary Gensler will be talking about meme stocks. I'm not sure what it means but it's provocative and definitely has me fucking GOING!
