He is saying that Chinese markets are going to be the first to fall. We've already seen the cracks with evergrande and it seems like he's hinting at this which wouldn't be that crazy. Chinese market crash or Chinese markets crushed whichever one you like. Second tweet he is talking about the Chinese working class. Communist China has no respect for its people and workers. He's trying to save the Chinese lower classes to get on board the GME train before it takes off and shit hits the fan. When shit crashes it's always the lower classes that are left holding the bag. Being the activist that he is this doesn't seem far off for me either. But like the title suggest I'm retarded. Buy hold DRS is all I know. Have a wonderful weekend you beautiful apes!
