After watching the SEC's amazing youtube productions, I, as well as many others I'm sure, couldn't be happier with the results of my hard earned tax dollars at work. If only such an outstanding agency such as the SEC could receive more tax dollars for more youtube videos, then we would all be billionaire investors like Warren Buffet. Hurray!

Naturally, I immediately went to search "investomania" so I could learn how the SEC wants me to invest!

Here's what I found on this amazing website! Investor Bulletin #69! It's about insider trading! <https://www.investor.gov/introduction-investing/general-resources/news-alerts/alerts-bulletins/investor-bulletins-69>

>"Before investing, investors may wish to research insider ownership to consider the extent of insiders' economic stake in the success of the company, as reflected both in outright ownership and transactions (such as equity swaps) that may hedge the economic risk of that ownership. Many investors believe that reports of insiders' purchases and sales of company securities can provide useful information as to insiders' views of the performance or prospects of the company. Of course, insiders may sell company securities for any number of reasons, including for liquidity and diversification purposes. Forms 3, 4, and 5 are publicly available through the SEC's EDGAR website."

So let's apply this to our favorite stock. Oops, "meme stock" LOLLOLOLOL /*pieface*

* RC Ventures, our chairman went from 9,001,000 in '21 to 9,101,000 '22

* Larry Cheng, director went from 3,000 in '21 to 8,022 '22

* Alain Attal, director went from 127,901 in '21 to 130,423 '22

These insiders' positions went up! Meaning... hold on let me check my fancy new website... a positive view of the performance or prospects of the company! Hurray!

Next we'll take a look at what outsiders are doing.

* In '21 a fraction of APEs direct registered 5.2 million.

* In '22 this fraction of APEs increased this amount to 12.7 million!

These outsiders' positions went up! Meaning... hold on let me check my fancy new website... *pieface*! LOLLOLOLOL

Since this group of outsiders are uneducated and in control of their own money, this is probably nothing.

So lets instead check when outsiders give their money to other outsiders who **aren't** stupid and can make better decisions for you!

* BlackRock 9,217,335 '21 to 5,194,518 '22 ~~DOWN~~

* Senvest Management ~~DOWN~~ from 5,050,915 '21

* Maverick Capital ~~DOWN~~ from 4,658,607 '21

* Susquehanna ~~DOWN~~ from 4,409,467 '21

* Dimensional Fund Advisors ~~DOWN~~ from 3,934,919 '21

* Vanguard 5,162,095 '21 to 5,931,837 '22 ...~~UP~~? *PIEFACE*! They got the answer wrong

LOLOLOLOL! They're so stupid!

So outsiders **not** in control of their money, but in the hands of **not** stupid outsiders showed a negative view of the performance or prospects of the company. *Cry*

It's a shame that GameStop is what is known as a ***"Dark Store"*** in which retail cannot shop. It is only open to accredited shoppers. What's an accredited shopper? Let me check my fancy new website... <https://www.investor.gov/introduction-investing/general-resources/news-alerts/alerts-bulletins/investor-bulletins-46>

>Accredited shoppers "are not subject to some of the regulations that are designed to protect" retail shoppers.

That's right. They could... but they do not ever, ever make risky purchases like that Pikachu backpack you've always wanted.

So it doesn't matter what retail shoppers think of the store because they cannot shop there. It only matters what the accredited shoppers think.

And of course the insiders like their store, IT's THEIR STORE! LOLLOLOL /*doublepieface*

Investing is easy now!
Thanks investomania!
