Their tweet says to move a minimum of 10 IMX to their layer 2 wallet and trade at least 1 NFT during the staking period to be eligible. It seems like they do not mention the Gamestop Wallet, but when you click "Connect Wallet" at the site linked below, it gives two options: email or Metamask Wallet

The email option wants you to use Magic Wallet. Here's a link to help set that up:

The custom token address entered into Metamask for IMX is:

Could they make this anymore confusing? They've still got a long way to go.
