Hey Apes. So today I called my brokers, to let them know I don't want the equivalent. Both brokers does by default use the equivalent option. But because it has not been decided yet, they can't chance how you want to act if a dividend is decided. On the day it is decided, you have to call Nordnet, you can change it yourself if you use Saxo in some cases

Go to your Saxo trader go app. Go to account, on the top bar, scroll to "my corporate actions" gme should be here after it has been decided, click it, and change the option. If the option is not available you have to call Saxo.

Before some smooth brain decides to ask "WhY U nO DRS?". I have, just through Nordnet and Saxo
