

Title: Beta NFT? It sucks everyone bought all the NFTS and is trying to flip them for 4-10x the price.

Yeah I understand that's what the norm is for NFTS but I would like to own one without having to cough up hundreds of dollars (don't get me wrong though, I still want to support the creators). Maybe GameStop can create a "trophy" NFT that has a flat price so anyone can buy it to show they were here during the movement, or a cool beta NFT for all us beta peeps.
