GameStop is undergoing a turnaround plan under Chairman Ryan Cohen, the co-founder of e-commerce platform Chewy ([CHWY](#)).

Cohen, known as "Papa Cohen" by the retail trader crowd, has been hush-hush about his strategy.

"We are trying to do something that nobody in the retail space has ever done," Cohen said at the company's annual meeting in June of last year.

GameStop went through a C-Suite overhaul over the summer, with Amazon ([AMZN](#)) veterans Matt Furlong appointed as CEO and Mike Recupero as CFO.

In December, the company announced it had established new offices in Seattle and Boston, describing the locations as "technology hubs with established talent markets."

Recently, GameStop and other meme favorites have been under pressure along with other risky assets and growth names, over concerns of Fed rate hikes this year.
