Morning, apologies on the delay but I saw something a bit off this morning and was waiting to see if it would change the closer we got to market open. It did not and this leads me to believe there's some funky things going on with GME. You'll see why below!!

[Utilization](<https://preview.redd.it/s9m3hywese391.png?width=2880&format=png&auto=webp&s=9e8d27a0415beb8a7c0ee0b1671e80ba741c958a>)

[Cost to Borrow](<https://preview.redd.it/ydwhm4wfse391.png?width=2880&format=png&auto=webp&s=21c1b5bf7b2be5e66fca5e8dcbf54ed0113d0e14>)

[On Loan - #of Loans](<https://preview.redd.it/7edppizgse391.png?width=2880&format=png&auto=webp&s=39cb311e87fb0133747325f36f0acfdca838f79>)

[All Time Data Points](<https://preview.redd.it/8t1zt5cise391.png?width=2880&format=png&auto=webp&s=743a3e5a78cc191363ae0580d5e3b86fc8b5d16c>)

[One Month Data Points](<https://preview.redd.it/2wj3v0ljse391.png?width=2880&format=png&auto=webp&s=74330505e8b98e043dbbda05dadf65dcec491cef>)

Now here's the juicy part. Check the CTB.

[Wut doing CTB??](<https://preview.redd.it/xvm1j7tmse391.png?width=2880&format=png&auto=webp&s=6eec155b9585ce7bc2e3f70cd5f659805e3119d8>)

I've been staring at that N/A% all morning. Nothing has changed. No updates. No glitches. Nada.

Now, Ortex defines this so no need for speculation here.

From Ortex, "Please note that ORTEX only shows the live CTB for new loans. If there are returned shares, but no newly borrowed shares, the CTB will remain N/A."

Wait, what?! Hold up, wait a minute, something ain't right. So that would mean that on one of the most shorted stocks not a single new loan has been generated this morning, at least publicly. Where shares go?

It's probably nothing though.

Happy Friday!!

Tagging u/superheroninja to spread the word.
