Hi,

I've been reading about DRS'ing shares and was wondering how i would go about this from the UK?

I use an app called freetrade and have 25 gme shares to add to the infinity pool but i have no idea how i would go about this, does anyone have a link with a step by step for me to follow?

Also what are the benefits of transferring these over to CS ? I'm gonna diamond hand these anyway if I cant DRS from over the pond but if any smooth brained ape can give me the benefits of transferring that would be appreciated

Thanks
