Edit* I've been told the glitch video was just the stream. The full was posted on YouTube.

TLDR: u/ratioatblessons post or hints were scattered through the SNL skit.

First off there was something really weird that happened during the stream, this bit was cut off from going public.

- * "Is she my cousin, I think I'm flirting with someone that might be my cousin"
- * Elon with a spaghetti strainer on his head with tin foil wires sticking out
- * Francis Mcdormand - "How the 'Great Recession' impacted the American dream"
- * Ooli mentions, "I was this normal Icelandic girl but my tit popped out at Prince Philip Funeral, then they gave me a TV show. Luckily it was my good tit"
- * Cousin Checker app "How many times have you found out too late that your lover is your cousin..."
- * Steve Buscemi as a guest to the Ooli show.
- * Grizzled lady detective skit "call me Care?"
- * "The New York Times says so authentically Pennsylvania absolutely everyone was related to each other"
- * Lots of reference to the everyone being the cousin of the detective
- * Elon comes in as the priest and claims he is friends with the daughter, everyone points to him and says "He is the one he's the one that murdered your daughter"
- * Cuts scene to MURDUR DURDUR "This is where Joe Biden is From"
- * Out of control rocket crashing back to earth...(the video feed glitches here and seems to have been completely cut out.)
- * Jeff Bezos is auctioning off 1 seat on the first flight of his passenger rocket "why are all these rich white people trying to go to space"
- * References to Trump launching a new blog.
- * CVS responsible for half of all unused covid vaccines
- * Verizon reference that they are selling AOL and Yahoo
- * Disney Land reopening mini-skit, discussion of splash mountain ride breaking down. Deranged mom talking about getting her back blown out.
- * Mini-skit of Biden and wife visiting Jimmy Carter. It then zooms out to Rudy Giuliani holding a snow globe with Biden, Jimmy Carter, and their wives inside.
- * South Carolina is adding firing squads to their execution method.
- * Reference to a missing woman who was found in Utah living off grass and moss. She either had mental health issues or read an article on GOOP.
- * Cryptocurrency skit with Elon (Lloyd Ostertag) calling himself the Dogefather. Elon goes on to explain that cryptocurrency is digital money that instead of being controlled by a central is decentralized.
- * They continuously ask "What is Dogecoin", pull out a dollar, and claim the dollar is real.
- * Elon responds, "It's about as real as that dollar". It's an unstoppable financial vehicle that is going to take over the world.
- * It's a hustle. Elon yells, "To the Moon"
- * Baby Yoda Scene: McDonald's cut scene showing the "Baby Yoda Happy Meal" and talks about there being baggies of MDMA and 2 eggs
- * **Mario SKIT Luigi is on the stand, saying he heard his bother die. Elon is playing Wario. Keep in mind,

Ratio had posted Mario references long before this skit referencing Citadel's infinite money glitch.

- * Wario claims, "Luigi was sleeping with Princess Peach, Mario's wife". Then shows text messages between the two, between Princess peach and Luigi.

- * 2 puzzle pieces are shown on screen. Way too much of a coincidence as the puzzles have almost not context/place in the design combining U.S and Italian flags.

- * Cowboy scene, discussion of GOLD and a new creation of a currency that is backed by whatever we would say it's based on.
