I don't believe I need to ask, I feel that most people here can feel...something...in the air. There's a tingle to the tits and deep down, zen or not, I think you see pieces coming together in a big way. I could go on exceedingly about separate tinfoil theories that I could speculate piece together into this puzzle, but I want to focus on the pieces in front of us. Specifically, the upcoming ["Gaming Wall Street"]([https://www.google.com/url?sa=t&rct=j&q=&esrc=s&source=web&cd=&cad=rja&uact=8&ved=2ahUKewjmk6iMoJ\\_2AhWkMX0KHUowDeMQFnOECAGQAQ&url=https%3A%2F%2Fwww.imdb.com%2Ftitle%2Ftt18332840%2F&usq=AOvVaw1tjCeeGtZe0-pjNs1FqPdS](https://www.google.com/url?sa=t&rct=j&q=&esrc=s&source=web&cd=&cad=rja&uact=8&ved=2ahUKewjmk6iMoJ_2AhWkMX0KHUowDeMQFnOECAGQAQ&url=https%3A%2F%2Fwww.imdb.com%2Ftitle%2Ftt18332840%2F&usq=AOvVaw1tjCeeGtZe0-pjNs1FqPdS)) documentary, the upcoming ["The Problem With Jon Stewart"]([https://www.reddit.com/r/Superstonk/comments/sq8t5p/if\\_you\\_want\\_moass\\_and\\_you\\_have\\_a\\_twitter\\_account/](https://www.reddit.com/r/Superstonk/comments/sq8t5p/if_you_want_moass_and_you_have_a_twitter_account/)) episode, and more importantly...**\*\*grassroots advocacy\*\***.

**\*\*TL;DR (but you should definitely read/critique it)\*\***

I believe Dave Lauer, Tobias Deml, Jon Stewart, and others are about to disclose some gnarly new info and quite literally hand us individuals a microphone wired directly to some very "important" people using a proven **\*\*grassroots advocacy\*\*** approach and cause the ongoing tale of Gamestop to go viral once more in ways that can no longer be ignored...again. This will begin next week, July 23rd. Because of this...we need to be vigilant and wise.

# The Problem

We are all aware of the new episode of The Problem hosted by Jon Stewart dropping next week July 23rd. We know that this specific episode will be featuring some very important characters within this story that all of us individuals just happen to be a part of. Gary Gensler and DLauer in the same room talking about the beloved? Jon Stewart has a history of rustling feathers as well. Had you told me this in my weak state of un-zenness, well... I'll leave that up to your imaginations.

What DL has openly said on the matter.

**\*\*"Amidst the backdrop of extremely distressing global events, there is a lot happening in the world of market structure. Next week will be a week unlike any other, since Jan 2021. We've got some very big initiatives coming together - an incredible confluence of events taking place."\*\***

and

**\*\*"I'm excited to reveal what we've been working on - I think next week will mark the "end of the beginning" - we've all learned so much, and now it's be time to organize efforts and make our voices heard. 2022 will mark a turning point in market fairness and efficiency."\*\***

Now the DL comment that I'm interested in making a point with.

Grass...roots...advocacy. More on that later.

# Gaming Wall Street

This one has me intrigued, yet still hesitant. There are talks about some more very important characters to this story appearing to have "significant...screen time". One of those characters, non other than DFV himself. This coming from the directors keyboard himself.

[Thank you uVTripleKnockout for the assembly of comments. Go look](<https://preview.redd.it/pworcg8t9ek81.jpg?width=729&format=pjpg&auto=webp&s=5c6ae1e3c29758040994a7e5e6dfbc0486a83a12>)

Not only is DFV a potential, but the topic of synthetic shorts and FTDs is, supposedly, a focus. This could be a key difference in what we've seen before.

I've been around since April. I'm ashamed to admit that I missed some of the most significant portions of this tale. However, I've been around long enough to learn to be skeptical until proven wrong. We've seen some shady dealings with some shady folks either simply trying to leach energy from the saga, or flat out using it to twist our tits (and not in the glorious way we like) by disclosing false information about it or lacking crucial details in order to spread more misinformation. Others may have been pure in motive, but I can't think of many.

In saying that, I have found myself leaning towards intrigue regarding this one. Perhaps not as much as I am with the Jon Stewart episode, but perhaps so because I think they might be linked and \\*kithing. Again more on that in a little bit. I promise.

Whatever the case, Director [Tobias Deml]([https://www.google.com/url?sa=t&rct=j&q=&esrc=s&source=web&cd=&cad=rja&uact=8&ved=2ahUKEwjwpcGDkZ\\_2AhVkLTQIHfYF\\_BSMQFnoECBEQAQ&url=https%3A%2F%2Fwww.imdb.com%2Fname%2Fnm2993564%2F&usg=AOvVaw1IBFqSQfwb2oXJbmWglq1R](https://www.google.com/url?sa=t&rct=j&q=&esrc=s&source=web&cd=&cad=rja&uact=8&ved=2ahUKEwjwpcGDkZ_2AhVkLTQIHfYF_BSMQFnoECBEQAQ&url=https%3A%2F%2Fwww.imdb.com%2Fname%2Fnm2993564%2F&usg=AOvVaw1IBFqSQfwb2oXJbmWglq1R)) is said to be an actual ape. An Austrian ape. An actual Austrian ape. There's not much, really not anything, that I have dug up to discredit this. So for now I wait with eagerness to hear what he has to say. (I'm not going to lie, as a filmmaker myself, I'm quite a bit jealous that u/tobiasdeml has beaten me to it. Well done and more power if that's the case.)

>\*perhaps so because I think they might be in linked\*

Why do I suspect they might be linked? Glad you asked, weary traveler, listen to my tale.

Check it. I'll make it easy to slip the tinfoil around your slick dome.

# Now, what is Grassroots Advocacy Papaw?

\*\*\*[\"Grassroots advocacy\"](<https://www.quorum.us/solutions/grassroots-advocacy/>) \*makes it possible for citizens and organizations to elevate their voices and impact the issues they care about. At the core of effective grassroots advocacy are campaigns that build widespread support in order to shape political dialogue.\"\*

Here's an authentic example. It's a bit of a dry read at first, but once it clicks....oof.

[Giving Voice: The Power Of Grassroots Advocacy In Shaping Public Policy]([https://www.gih.org/files/usrdoc/Grassroots\\_Advocacy\\_Sunflower\\_Foundation\\_November\\_2010.pdf](https://www.gih.org/files/usrdoc/Grassroots_Advocacy_Sunflower_Foundation_November_2010.pdf))

[Let's look closer](<https://preview.redd.it/zvgopf8caek81.jpg?width=750&format=pjpg&auto=webp&s=fda5875778658b73d9d87aa42f90ebef614f019>)

Grassroots advocacy is literally giving a voice to the people who have been left mute and ignored by, quite literally, \*\*giving your voice\*\*.

I am quite convinced that Dave Lauer, Tobias Deml, Jon Stewart, hell perhaps even the Gensler, are potentially going to make a massive move next week. I believe the big move will be not only disclosure of details that even we individuals have yet to unearth but more importantly us individuals will be thrust into the "spotlight" along with our beloved, in order to be heard. Personally. Way more personally than we have ever had the opportunity to do so before. However, not every opportunity should be met with haste.

>\"Its one thing to know everything that we know we know. It's another to know how to use that knowledge appropriately and effectively. Thats called wisdom bud.\"- Me\*

Now what I urge us to be vigilant about is exactly this. We have comically but not so comically seen what happens when the outside world asks Red dit folks a question and then air it out for the world to see. We have also been exceedingly careful to state the fact that we are unorganized, individual investors who like a stock. I'm not saying that dark forces could use our voices against us to paint a different picture, but let's be honest, desperation does weird things to the desperate. Am I then saying that some of these people that I've mentioned here are the bad actors? Absolutely not. But the true bad actors will use everything opportunity they can down to their dying breath, which we may be seeing here very soon. All I'm saying is to be aware of what's happening, because zen or not, here it comes.

Edit: \"He's gonna launch his platform based on market transparency for retail that he's been working on for the past months. Great way to circumvent advertising infringement this post is. ■\"

I've received a lot of these comments within this post. The thought behind them being that Dave Lauer and the accompanying characters within this post are simply advertising the new Terminal that has been being worked on. My response has been \"I'm sure there's some of that. But he's also on the John Stewart show specifically talking about what's going on. I hardly believe that what he's hyping is only his terminal.\"

There's something different going on, something big. I can't say what. If you don't believe me, take it from

Dave himself. He's in the comments refuting the "false hype" mentality.

Edit 2: even I stand corrected. Dave is out right saying that the terminal has nothing to do with the hype. So there you go.
