I don't know about you all but I am not waiting for them to tank this price to buy more. I believe they are keeping it right where they want it to not bring in FOMO buyers and attention and they know our average price range and are not lowering below that on purpose. I will be buying early next week up till the 19th so my shares settle before yearly options. F Shitadel and their bail-out money to keep afloat. We will bankrupt them anyway. And PRAYING GME makes their NFT announcement soon. I know they have to get this ready but we need it ready to roll now. I am so angry after being in this play for nearly a year and seeing the Fuckery. I am not selling till #kengriffinlied goes to jail. FYI: I am almost 61 and a granny to six kids. My retirement depends on this this play but am in it to win it. I will have STILL HODLING GME put on my tombstone if necessary.
