Hey Guys,

Cant post to SS as im just a nobody lurker here but seen an number of odd posts creep up in the last day or so. The "I know when moass will happen with 99% certainty" or the "I think price will drop to x amount so I am going to save and buy that mega dip" all of which could lure apes to sell now for more shares when it drops. (Totally hypothetically thinking, I know we all have diamond balls). Ive seen talks of selling cars , mortgaging houses and dumping in kids college funds.. Please be smart and dont risk anything prior to moass that could hurt you short term. It will come and when it does you wont need those extra 20 shares you get now. Remember, Phone Numbers. ■■■■

Enjoy the rest of the weekend you dirty apes and dont get caught up in the FUD !!
