Don't take my word for it but I think GME is a great opportunity today / tomorrow. At \$89 as I write this post and with earnings in a couple of days time, to me it just seems an incredible opportunity. Nobody on the mainstream is saying this and I expect most mainstream pundits to shout me down and tell me I have no idea what I'm talking about. So...well...I haven't followed mainstream device for a long time!

Then again, I'm not a coke snorting bald guy with an excruciatingly annoying face and voice and an attitude problem. Nor am I a brainless Bloomberg anchorman / anchorwoman who just says what they're told to say. Nor am I getting paid by Wall Street scumbags to publish my opinion. I'm just a normal person, drinking a chai tea on a balcony. Hahaha that doesn't sound very normal, but it happens to be true.

Good luck all you crazy apes. I love our community of degenerates and I'm very proud we are sticking it to the man.
