Good afternoon fellow Apes,

I am a fellow Ape from Belgium and I have GME shares since February this year. I have seen a lot of posts on several forums about CS and I was wondering because it isn't easy for me to move these shares from my Belgian broker (BOLERO kbc Bank) to CS, or they are not giving me any replies. What if the MOASS happens and I am stuck with my xxx shares with this broker, does it imply that my shares will have to be bought at a much lower price than all the shares that were put by Apes on CS? With all these posts appearing the last weeks, I am starting to feel a bit uneasy. Thanks for your replies!
