Rima Senvest Management is a hedge fund led by Richard Mashaal and is based in New York. The fund managed to be one of the top performing money managers of the year due to a shrewd bet it made on GameStop at the beginning of the year, as well as smart investments in Canadian energy companies through the rest of 2021. Mashaal also profited by shorting Chinese firm Gaotu Techedu Inc. At the end of the third quarter of 2021, the fund had a portfolio value of around \$3.5 billion.
