Hope GME plays out. I had only a few shares to begin with over a year ago. I got into "the other stock" with a decent chunk. But now with the split, I sold some of the other to get back in GME, and be a supporter for both sides. Even have a few hundred sitting on the side, waiting for the price to reflect the split after the 22nd. I had to do it this way so that I could afford more than what I previously had.
