Just purchased 10 more shares this AM on the dip! Finally got my dad to commit to GME after all this time and he just sent me \$1000 to put towards my purple ring account so it will be DRS instead of him buying from his brokerage account. I have been working on him for over a year to jump on this train and he told me every time that I was crazy. Now he sees my crazy as a reality! I hope it continues to drop so we get a lower prices once they settle!! The end is Coming but no clue when, we are just here for the ride and an amazing company!
