****Probs Gunna Name Mi Yacht "Stevie Wonder's S. E. Seaship" er sumshit? Prolly****

Just fuckin read it ■■■■■■smh

EDIT: It is now quite apparent I should of started with this. Oh well, deal with it.

*I'm going to start this more than likely ignorant random crayon snorting racing shower thought ramble to absolutely nobody by letting you know this will be typed like you handed a phone to an actual well known hairy zoo animal because I'm just typing n to the least of my concerns especially after the last year's journey (that I would not trade for anything). Yes I talk in ridiculous power upped runnons n abuse commas like a bottle of JD on the crayons in a bad ass tiny glass cup per usual Friday. To be honest I exaggerate n come off like an asshole, it's likely on propose for attempted comedic effect "so if I offend you, good cus I still don't give a fuck" by Eminem is a great song. Everything I say is false incorrect n made up with 0 credit to effort of trying.

Derrrr what is a hedge fund derrrr?

If you can answer that simple simple question to yourself you have already put the biggest piece together.

A hedge fund makes money when the market goes down.

If market goes down, that means you the retail investor, are the one losing money.

2+2 anybody in the classroom hands? anywhere? anyone anyone... (cricket noise)

(ya know, the very YOU some/the hedge comps are hedging quite possibly as a sheer means of business existence over many decades, no?)

These exact grease ball snek my sneks ■■■ have spent billions and billions of "on air" time and coverage to SAVE you (any retail investor prolly) from your (prolly) position going down. Wait wait wait, wouldn't they want the market to go down though?.... I thought you just said that's how a hedge fund makes its money?

Good catch, BUT NOT THIS TIME CHARLIE BRRR BRRR BRRROWWWW Chaplin?

Get this big dawwwwg, for the FIRST TIME in their HISTORY of existence (prolly wrong) same hedge comps (prolly) are most definitely (prolly) going to quite extraorrrrrrdinary lengths trying to protect those same chum in the water retail investor group (dumb money for short? Lmao for short ■) that allegedly their entire practice has benefitted/profited off you losing money for decades and decades.

Aaaaaaalllllll that time and money wasted, about a stock, they couldn't care less about, that has been "OVER!!!!" for 12 months and 2 days since the first time I was being force fed by MSM yellin at me it was over? (Prolly)

Now I ask YOU, how much free spare time have you ever spent in your life in your own purgative (prolly) trying to talk someone else out of an investment you don't follow or care about? Why does 2+2 not add up to 4 somewhere in my marble of dome piece?

Lolol just think to yourself, why would someone that hates, dislikes, or doesn't even care about a damn video game GameStop, clearly drawing a line in the (prolly) sand on where that stance is/where the hill to die on flag is planted.

Why, why would that anyone have to spend more than a fart let alone a full year and 2 days now reminding all random ass strangers (ya know, the desperately needing to wear sunscreen even if they get new light bulbs type of peeps/section of the world. (Definitely)). repeatedly a couple times a week that something they said/still say (?prolly) was over 52+ weeks ago?

Any one else's last two brain cells thinkin they could team up to possibly put an ounce of thought?

Ask yourself:

Have you personally ever seen Wally Streeter son sooooo caring about the loss of individual retail portfolios even a bit, let alone to this extent. Don't hedge funds likely & logically make majority if not all of the mon of those same portfolios? Those are the portfolios that need to lose value in order for max fun coupons in the pock-a-rooooooskis ohhhh yeahhhhh! (Prolly)

I'm pretty sure a 5 year old could put this together, yet majority of the world with the most advanced technology in their pockets or hands, that's evvvvvvver been available, becomes a blind society getting more and more "retarded" ALLLLLLL WHILEEEEEEE having the most information ever at their own finger tips that there has ever in the history or the world. It's very strange/odd/sad for me to observe most of the world running like a herd listening to whatever their phones tell them what exactly what they would like n could think. (Prolly)

All & all, fuck the games n just keep it simple.

GME + RC = Fuck Everything Else!

Can't wait to see you ugly max two brain celled diamond bean bag mother fuckers on the mother fucking moon! ■■■■■■■■■■
