After hearing about this BBBy crap I've started to think that maybe Ryan cohen is not fully invested into GME. I love the guy but him crying on Twitter about not getting a response from BBBy ceo just pisses me off. I've only been trying to figure out what the fuck GME is trying to do for the past year and so. Yes we know a lot now but is it enough? Us investor in gme are bending over backwards watching our portfolios bleed and this mother fucker throws 150 mill at bbby? Yeah okay, Matt Furlong here I cum.
