So i was watching [Bankless](<https://youtu.be/ULI4FRVKmLI?t=3854>) on Youtube and they mentioned [IMX + Riot](<https://twitter.com/BathalaX/status/1499624651739496450?s=20&t=rmf50RaJ3U7PLUzl0g5C7Q>) (old news 3/22 but new to me!) Anthony Sassano ([Obi-Wan Kenobi of ETH](<https://youtu.be/zIN6lcMHpII?t=70>)) from the Daily Gwei on Youtube is a bear on crypto gaming thus far, but [he states](<https://youtu.be/ULI4FRVKmLI?t=3915>):

"If anyone is going to prove me wrong about crypto gaming, it's Immutable"

"I'm bullish on Immutable, I'm bullish on their ability to prove me wrong, that's for sure."

Ryan Cohen and Gamestop are assembling such a jaw-dropping superstar team. IMHO, Riot is the new peak-Blizzard. i dunno Sassano but he seems knowledgeable in ETH/crypto and shares the mainstream opinion of NFT gaming is a ponzi but sees hope with IMX. i know it's just one person's opinion, and he's relatively small-time (20k followers), but that Drake meme going around "--NFTs will save Gamestop~~ Gamestop will save NFTs" seems more and more likely.

Sorry for the click-bait title, but haters being bullish on being proven wrong seemed interesting. Video's worth a watch:
