Hey everyone! I hope you are doing well. I just wanted to provide you some charts I colored on to confirm your bias that we are going to the moon soon. After today GME has found a bottom and I believe we will be back into a bull run. Of course none of this is financial advice, I am severely retarded and I eat crayons.

[This is the 1 day](<https://preview.redd.it/qj9qm5g83cw81.png?width=1132&format=png&auto=webp&s=3c8dfb96482544055109e72037d4544e2a9660a1>)

Important thing to point out is the purple circle on the MACD. See the green histogram? its green and showing a reversal after today

Stoch (blue) is starting to go up

Accumulation distribution (yellow) is starting to go up

Aroon (big pink circle) is very oversold (-100, can't go any lower) and is probably going to follow the other indicators going up as well

Overall - after the spike on 3/29 (i'll show a picture below) that should have ignited the squizzle, the powers at be shorted the stonk back down for the past 30ish days to where we are now. t + 35 for that expires next week around the same time as astronaut day/cinco de mayo. I'm very bullish and I think green days are ahead

[remember this?](<https://preview.redd.it/9m9i4op64cw81.png?width=542&format=png&auto=webp&s=1cb33806847c4fccd358026ff2376dc372014f56>)

yeah so that happened on 3/15 and t + 35 for that last spike is next week

[This is the 1 week](<https://preview.redd.it/71hsg8ti4cw81.png?width=1128&format=png&auto=webp&s=417938c67e2491590dec63b8b83d12d8d8a3776a>)

Purple circle is showing another key indicator. Stoch is reversing and is about to enter a golden cross

Parabolic Sars (pink) is flipped and still indicting GME is still bullish after that last spike

A/D and AROON (orange) is still showing bullish momentum after that last spike as well

Overall - GME is looking super bullish entering into next week

TLDR: GME is about to reverse into another bull run headed into next week. T+35 from that last spike is next week and aligns with "astronaut day" that has been found in the coding. That happens to be may 5th on cinco de mayo. Which I speculate is going to be launch of the NFT market place.

TARD: Moon soon
