gamestop-careers.jobs.net

several domains in gaming, content creation, partnerships, game design/development/mechanics, and a general understanding and experience with Ethereum, NFTs, and blockchain based gaming platforms.

Job Responsibilities

- Deeply understand what our gaming partners are trying to achieve and how NFTs can be a key business driver
- Drive GameStop's future growth engine by building relationships with the newest, and largest game publishers in the world
- Build a team to help creators launch their projects on the GameStop platform
- Contribute to team projects to develop and refine our processes and vision for the future

Job Description

Description:

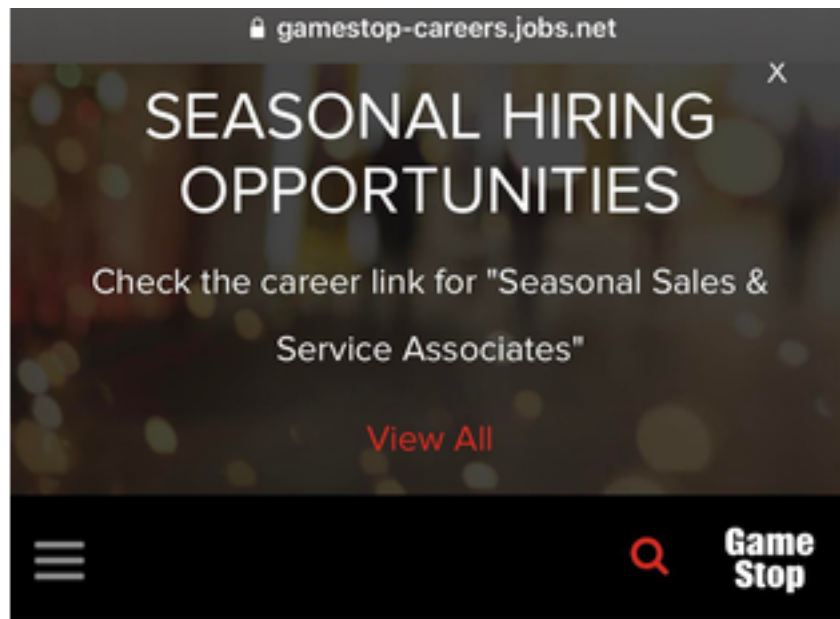

Have you built products from scratch?

Have you launched new initiatives and grown them to billions in revenue?

Have you dabbled in the new Web3 world? Are you a gamer to your core? If so, you belong here with us.

GameStop is looking for a unique individual who can help accelerate the future of gaming and commerce. In this future, games are the places to go, and play is driven by the things you bring.

Future creators won't just build games but also the components, characters, and equipment. Blockchains will power the commerce underneath. An ideal candidate will have experience across several domains in gaming, content creation, partnerships, game design/development/mechanics, and a general understanding and experience
