

Title: So who called bull on the GME loop partnership with their Q4 report? As much as it pains me to say it cause I bought in pretty heavily, for me, at the tune of 10k on dupecoin. I hope it will still be good longterm, but must say I feel pretty lied to. DRS should be our main focus, not distractions.

Jan 5 · 9 min read

This is the fourth and final edition of our 2021 Loopring Quarterly Updates. You can catch up on the previous quarter [here](#) and you can also receive these updates in your inbox every quarter by subscribing [here](#).

2021 was the year we saw Layer 2's step into the mainstream as total value locked grew from \$40 million to \$5.55 billion. As many L2 projects launched and were met with high demand, rollups quickly proved to be more than just a necessity to escape rising gas
