Welcome to 100+ days of ~~summer~~ broker guides!

Now the split is in effect we are having another wave of DRS transfers. So lets raise some awareness around how to get your GameStop shares into the Direct Registration System!

If you're looking for a guide for your broker leave a comment with the following command to summon the DRSGME wizard:

!DRSGME:ALLY!

Just replace ALLY with your broker's name. If you can't find your broker guide, let me know and I'll see what I can dig up!

Day 2, Guide 2: Ally

Ally is a US based broker that uses Apex Clearinghouse. Apex charges a \$115 fee to DRS transfer any amount of shares. And also threatens a \$125 fee if the transfer fails.

If you want to avoid these fees you can transfer to a broker that can DRS for free. Such as: Fidelity (the most popular option, as they can reimburse the \$75 account transfer fee), JP Morgan Chase, Charles Schwab, TDA, Morgan Stanley, Seibert, US Bank, or Wells Fargo.

Guides for all these brokers are available and you can summon a guide for them using the DRSGME wizard.
