What a bunch of MF'ing 2-face lyin' lower-than-whale-shit douchebags!!!

The headline from the Yahoo Finance article... "\*\*\*\*The meme stock revolution is over. Goldman Sachs says U.S. retail investors have sold most of what they bought over the last two years\*\*\*\*".

\*\*Hi DoJ,\*\* could have a little chat with the Goldman Sachs author of the MSM article and ask him where the fuck is he getting his data; Cause last I checked, \*\*NO ONE\*\* is selling their GME shares, and certainly \*\*NOT\*\* retail investors. Typically I would ask the SEC to investigate this obvious market manipulation but after their latest fuck-up, it seems like they are no longer to be considered a serious and professional organization working in the interest of fair markets and retail investors.
