So I've already DRS'd two GME shares via IBKR in the exactly the same way as I'm trying to now. Got the lovely letter from Computershare and everything. Now trying to DRS my last 8 GME shares (whale I know) and the last two attempts have been rejected. One said 'client does not have enough funds' (I had €100) spare in there. I deposited another €100 ish. The second time it said this breaks company policy. If anyone can help it would be greatly appreciated ...
