REVERSE REPO LAONS..... anyone who has never heard about it go to the <https://www.newyorkfed.org/markets/desk-operations/reverse-repo> . Go directly to the source.. the FED RESERVE are loaning out RECORD BREAKING NUMBERS on the daily now. (I DONT THINK YOUR UNDERSTANDING, We are breaking new highs EVERYDAY NOW)

Even throughout the Pandemic, we never seen as much as a hiccup in the market despite record breaking unemployment numbers and money being pumped into the homes of everyone in America, still not even a DENT into the pockets of the government. Along come GME baby and DFV to ignite the spark that would eventually destroy corrupt market manipulation.

MELVIN CAPITAL + CITADEL kicked off the downfall by shorting a stock they NEEDED to go to zero. so much so that when the retail started to rally and BUY BUY BUY we changes the GAME...STOP!

The Repo loans started to increase right after the second rally in the price action for GME, right when retail got their confirmation to the real corruption happening. Ever since that second rally and retail getting their confirmation bias did Kenny Griffin and everyone over at CITADEL+ MELVIN/ROBINHOOD start to panic.... and in comes the FED to try save the day. Unfortunately its simply not enough. All the money being pulled from the markets to such extent is coming from one place and one place only... UP TOP... your seeing real time liquidation. This is the result of the incoming M.O.A.S.S. Buckle up ladies and gents because when this baby hits 88MPH were going to see some serious shit. One of the main reasons for what were seeing right now HYPERINFLATION. Hyperinflation has two main causes: an increase in the money supply and demand-pull inflation. The former happens when a country's government begins printing money to pay for its spending. As it increases the money supply, prices rise as in regular inflation.

Our inflation has ZERO to do with a WAR that DOES NOT include our country. LET ME REPEAT THAT>>>> WE ARE NOT AT WAR.. Our military is not deployed to an active warzone. Our military is not actively engaged with Russia. Any Aid sent to the Ukraine is not going to cripple a economy.

Biden using Putin and the war as a reason for why the people are paying for a government that quite frankly FUCKED UP THEIR JOB is a direct insult to the publics intelligence. They are betting on the individual person to be so fucking retarded that they cannot question actions.

The FED is printing money, enough money that it is causing record breaking inflation numbers, what would cause record breaking inflation numbers.... record breaking money being printed. With the FED giving MELVIN+CITADEL an average of \$1.9 TRILLION DAILY and increasing, its no wonder why their is no money for market management.

Open your eyes people.... this information is PUBLIC and if you know what to look for and where to look you can do it too.

You better go do your due diligence now before Bidens "Ministry of Truth" dictates what's true and what's not. Before long the public will not be able to have access to information, before long the government can silence any information the "RETAIL TRADERS" will share with one another. The public caught the powers that be with their pants down and have played them at their very game and they are now realizing the damage that can be caused with mass organization amongst the public.
