Got an email from Robinhood about voting on GME, which is much faster than last year so that's good.

Before I get flamed, I signed up for Robinhood over a year ago and got a free share of a silver stock. I sold it, and used the proceeds to buy a partial share of GME. There it stays for the inevitable lawsuit for the next fuckery that they are a part of.

They have none of my money, and my shares otherwise are DRSED.
