It's clear that everyone, even GameStop fanatics, are finding and learning about Direct Registration and the DRS at different speeds. So I'm hoping this series of posts helps to raise more awareness that it is possible, and it's even easier than it was at the start of 2022!

If you're looking for a guide for your broker, check out the website and you'll find 109 guides (hopefully you're broker is one of them!). If you can't find your broker guide, let me know and I'll see what I can dig up!

Day 12, Guide 12: CASH APP

<https://www.drsgme.org/drs/direct-register-shares-from-cash-app>

Cash App is an American app that offers various financial services, one of them being a brokerage service. And it is free to DRS transfer from them!

Initially Cash App would only allow transfers to other brokers, but it seems the apes wore them down and got them to introduce DRS transfers. They even made their own DRS transfer request form, which looks suspiciously like the Drivewealth one!
