I had this crazy dream last night. I was sitting at the edge of the lake of Zürich (swiss ape so i dream about this), fishing, alone, not minding anyone or anything. Thinking about nothing. Total nirvana.

THEN. SUDDENLY. The water withdrew. It just went away. Revealing the ugly nothingness of the bottom of the lake.

In my dream I knew a tsunami was coming, so I ran and ran and ran. Up, up, up, up to the Üetliberg (Zürich city mountain) while shouting at everyone to do the same. Guess what nobody listened (like when I bring up GME...)

Finally after more uphill (just up) running through the forest I turned around. Still no water in the Zürisee (lake of Zürich)

So I sat down at a bar (it's a dream...)

Got me a fine 40 IBU IPA and started sipping. All of a sudden the water came back, brown as shit. A huge wave with many arms (like an octopus) flooded our financial district at Bahnhofstrasse. UBS: gone. Credit Suisse: gone. Zürcher Kantonalbank: Gone. All international banks: gone. Swiss national bank at Bürkliplatz: gone. All shitty private banks: gone too.

I was just sitting there, drinking my beer. Enjoying it. But saddened by the loss. I was shocked in my dream. Still I kept watching, doing nothing. I had warned/told everyone after all. They wouldn't listen to me. Then my little daughter woke me up and the dream was over.

I believe this was a sign. It was the night before the dedgies. All the big bois drowning in a flood of shit dirty water.

On my morning "sitting" I realized this was a vision of the future.

Hedgies no more, they're dedgies now.

Nobody listened. Not even some of my dearest friends. I was crazy after all.

So good night hedgies.

See you tomorrow dedgies.
