I'm writing this not because I can, but because I must.

The Shills have infiltrated, adapted, and multiplied. Beware of the ones who act like they're on your team, but will push specific narratives relentlessly. This makes certain things very obvious tho. But Beware, they've learned to blend in. Here's what to look for

The Shills Gameplan:

- Prevent DRS hype
- Create unnecessary Conflict
- Make Bold statements & Predictions and present them as facts
- Posts/comments with negative sentiment
- Encourage specific trades for you

Do not let their sails catch wind, do not engage with their fallacies

Be Great, Be Helpful, Be Kind, Beware

Be Loud, Be Proud, Be honest, Be you

Here's my suggestions on how to be useful to accomplish the goals of Many of us here ■

Buy the Dip and watch It Rip. Whether you HOLD or HODL make sure to buckle up. Direct Register Shares with Computershare. Engage with community bringing positivity and genuine support. Love each other.

Only light can defeat darkness. Only love can defeat Hate. Only GameStop can defeat Wall Street.

Seriously knuckleheads » let's get loud, get our Money, dictate our futures, take what's ours, and leave these old corrupt people and methods buried so our kids can prosper beyond our imaginations.

DFV, RC, & GME — Thank You ■
